Things to note:

- Canadian traders are not currently eligible (working on this)
- If trader drops out, then his/her volume will be removed and threshold will be reduced to accommodate
- Members of an Edge Pool will receive notification of the usernames of the other participating members so you can connect

Trading derivatives is not suitable for all investors. Past performance is not necessarily indicative of future results.

Things to note:

For example:

- Total volume threshold for 5 members may be 10,000 contracts
 - Trader A executes 1000 contracts the first month
 - Trader B executes 500, Trader C executes 500, Trader D executes 500, and Trader E executes 500
 - This brings your total group volume to 3,000 contracts (7k more to go)
 - Trader A decides to close her account (1000 contracts traded)
 - We will remove the 1,000 contracts from the total, and then decrease the threshold to 8,000 contracts

Reporting Total Volume

How will we know our total volume?

- We provide a total breakdown of volume in the first week of every month (for the previous month/year)
 - We will **not** send a breakdown of each members volume, only for the entire group
- Volume is generated more frequently as the Edge Pool approaches the threshold

When are rates discounted?

- Once the threshold is met, the **ENTIRE** group receives a discounted commission rate the following day
